

SUPERIOR SOLUTIONS FOR GATE SAFETY & SECURITY

**BUFFERS  
SILENT  
CLOSING**

Gate buffers are essential for preventing noisy gate closures, ensuring the gate closes smoothly without a loud bang. They are particularly beneficial in residential areas where gates are in constant use, helping to minimize noise and disruption.

For added convenience, we also offer buffers pre-fitted to a bracket that doubles as a gate stop, eliminating the need to install a separate stop to prevent the gate from swinging back in the opposite direction.

**Gate Bump Stop**

These bump stops will reduce the noise and vibrations of the gate banging shut, often used in residential areas where noise can disturb the public.

- **Noise Damper:** Reduces the noise made when a gate closes.
- **Easy to install:** Simply screw into the gate stop with the nut provided.

**AVAILABLE VERSIONS**

BS18	3/4" diameter x 1/4" M6 x 5/8" thread
BS50	2" diameter x 1 3/16", M10 x 1" thread

**Gate Silencer Kit**

Ensure quieter gate closing with a gate silencer kit. This is an angle bracket fitted with 2 bump stops which can be easily fitted to existing gates to prevent banging when the gate closes.

- **Easy to Fit:** Kit comes fully assembled to be bolted onto the gate post and supplied with fixings.
- **Durable:** Black powder coat finish, designed for use outside.

**AVAILABLE VERSIONS**

GSK	Gate silencer kit
